DETAILED ACTION

Introduction

1. Upon a discussion with the Examiner's supervisor, and careful reconsideration of Applicant's amendments and remarks filed on 6/29/2005 and 9/21/2005, the Examiner now withdraws the Office actions mailed 8/1/2005 and 10/24/2005. As such, Applicant's amendments to claims 12-16 and drawings have been entered.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Rejections not maintained are withdrawn. In particular, Applicant's amendments appear to be sufficient to overcome the relied upon teachings of prior art references, i.e., Onderak et al. (US 4403009) in view of DE 19607523A (Derwent abstract) and Cooke et al. (US 6479571), because at least, for independent claim 12, the prior art references lack teachings of limitations of "snug ... enclosure", "cover being dark", "textured non-slip pattern over its entire outer surface", "mat is reversible in use" (added in a reply filed 1/7/2005), "overlying upper and lower surfaces of substantially similar size", "peripheral edges of said cover ... about each other", and "means sealing said peripheral edges ... to each other" (newly added in a reply filed 6/29/2005). As such, the prior art references have been withdrawn from the present Office action, and Applicant's arguments are moot. However, if Applicant cancels the above-mentioned limitations, these references will be reconsidered, and be reinstated if appropriate.

Claim Rejections - 35 USC § 112

5. Claims 12-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

More particularly, it is noted that the independent claim 12 now recites additional limitations, as set forth above. However, Applicant fails to provide any support to these limitations in the original disclosure, nor does the Examiner be able to find any express or implicit support for them. As such, these aforementioned limitations appear to be new matter, and appropriate support for them are requested.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
